

Ini-ubong Enyinna Isemin

BACKEND DEVELOPER (PYTHON, DJANGO)

No. 6 Adebambo str, Obanikoro, Mainland Lagos | 08101859094 |

eugenieinie@gmail.com | [linkedin.com/in/iniubongisemin](https://www.linkedin.com/in/iniubongisemin) | **portfolio:** <https://iniubongisemin.vercel.app/>

Experience

Mentorled, UK | Fullstack Developer | Jan 2024 – June 2024

- Led a cross functional team of Designers, Backend and Frontend Developers to build the MVP (Zlide: A web application that utilizes AI to seamlessly generate PowerPoint slides).
- Developed the core logic for slide generation, utilizing NLTK to process text.
- Developed the core logic for User signup, User Login, Google login.
- Created all the API endpoints for the web application.
- Set up Postgres database, deployed the application to Vercel and hosted the server on railway.
- Managed and tracked my team's progress and ensured performance.
- Motivated teammates by fostering good rapport and maintaining constant communication throughout the project timeline.

Liberty Assured Ltd, Lagos | Backend Developer | Sept 2024 till date

- Worked in a cross-functional team of designers, backend and frontend developers to build CRM feature into [PayBox360](#) application for the company. Monitored & tracked progress of designers, frontend and backend engineers on my team.
- Implemented the foundational logic for creating leads, pipelines, stages, adding leads to stages and moving them across stages.
- Developed an in-house email infrastructure for handling email functionality (sending, retrieving, saving, deleting, drafts etc.).
- Built a round rubbing feature into the application that allowed leads to schedule zoom meetings with sales officers by integrating zoom, google and calendly apis for scheduling meetings.
- Integrated third-party APIs to track borrowers that defaulted on loans obtained from the [seeds and pennies](#) loan application.
- Optimized [WinWise lotto](#) admin dashboard (improved load time by 99%) by implementing database indexing, caching with Redis and celery task scheduling functionality.
- Streamlined customer service at the company by building endpoints for automation workflows with n8n and Freshchat.

Education

Abubakar Tafawa University, Bauchi | Nov 2021

B.Eng(Hons) Agricultural and Bioresource Engineering | Grade: 2.1

Skills & Abilities

-
- Critical thinking | Leadership
 - Solving Problems | Effective communication
 - Code refactoring | Debugging
 - Tools and IDE: Git, VS Code, Swagger, NLTK
 - Leadership | Adaptability | Communication

- Technologies: REST APIs
