Experience

Mentorled, UK | Backend Developer | Jan 2024 – June 2024

- Led a cross functional team of Designers, Backend and Frontend Developers to build the MVP (Zlide: A web application that utilizes AI to seamlessly generate PowerPoint slides).
- Developed the core logic for slide generation, utilizing NLTK to process text.
- Developed the core logic for User signup, User Login, Google login.
- Created all the API endpoints for the web application.
- Set up Postgres database, deployed the application to Vercel and hosted the server on railway.
- Managed and tracked my team's progress and ensured performance.
- Motivated teammates by fostering good rapport and maintaining constant communication throughout the project timeline.

Liberty Assured Ltd, Lagos | Backend Developer | Sep 2024 till date

- Worked in a cross functional team of Designers, Backend and Frontend Developers to build a CRM application for the Company.
- Implemented the foundational logic for creating leads, pipelines, stages, adding leads to stages and moving them across stages.
- Developed the backend for handling email functionality (sending, retrieving, saving, deleting, drafts etc).
- Integrated Zoom apis for scheduling and retrieving Zoom meetings.
- Integrated google apis for scheduling events on google calendar.
- Built "book a demo" feature that allowed leads to schedule zoom meetings with sales officers

Abubakar Tafawa University, Bauchi | 2021
